Skills

- Programming Languages

  Java,Python

- Frontend Development

  HTML ,CSS ,Bootstrap,TypeScript,JavaScript

  React.js ,ReactNative

- Backend Development

  Node.js ,Express.js,Next.js ,Spring Boot, .NET

- Databases

  MySQL,MongoDB,PostgreSQL

  Firebase Firestore

- Cloud & Services

  Docker,Google Cloud Platform (GCP)

  MinIO,Superbase,Firebase Authentication

- Tools & Platforms

  Git/GitHub,Postman,Swagger

About Me

Results driven Full Stack Developer and Software Engineering undergraduate with hands on industry experience in backend development, RESTful API design, and production level system integration. Recently completed a 6 month Backend Developer internship at i4Matrix (Pvt) Ltd, where I contributed to microservices based platforms including a Staff Transportation Management System and a Worker Platform Management System using Node.js, Express.js, Next.js, TypeScript, PostgreSQL, MongoDB, Prisma, Redis, and Docker.

Skilled in building scalable full stack applications with React, React Native, Spring Boot, and modern cloud technologies. Strong foundation in software architecture, database design, authentication systems, and agile development practices. Passionate about writing clean, maintainable code and continuously learning new technologies to deliver efficient, secure, and high quality software solutions.

Experience

BACKEND DEVELOPER INTERN – I4MATRIX (PVT) LTD

10/03/2026 – 11/09/2026 – COLOMBO, SRI LANKA

Worked as a Backend Developer Intern at i4Matrix (Pvt) Ltd, contributing to the development and maintenance of production level software platforms.

- Developed backend services and RESTful APIs using Node.js, Express.js, NestJS, and TypeScript.
- Contributed to a Staff Transportation Management System using a microservices architecture, including authentication, booking, payment, chat, notification, review, and complaint services.
- Contributed to a Worker Platform Management System using Nesxt.js, PostgreSQL,Redis, and MinIO.
- Worked with databases and backend technologies including PostgreSQL, MongoDB, Prisma, Supabase, Redis, and Docker.
- Supported integration testing, debugging, cloud deployment, and technical documentation.
- Collaborated with the development team to implement and maintain backend functionalities.

Education

HIGHER NATIONAL DIPLOMA (HND) IN SOFTWARE ENGINEERING

Institute of Software Engineering (IJSE)

ENGLISH LANGUAGE STUDIES

British Council

GENERAL CERTIFICATE OF EDUCATION (ADVANCED LEVEL)

G/Ananda Central Collage

GENERAL CERTIFICATE OF EDUCATION (ORDINARY LEVEL)

G/Ananda Central Collage
